1. [] - JGO) Met with Mr. E. Sampayrac, DOD, Office of the Assistant Secretary for Manpower, concerning DOD comments on the Agency legislative package. Mr. Sampayrac indicated that as of this morning he does not have in hand comments of the three services and the Assistant Secretary of Defense for International Affairs. Mr. Sampayrac noted that one component is expanding its use of overseas personnel and is quite interested in several authorities contained in this proposed legislation and that it would be the first part of the week before this question of the extent of interest would be resolved. When I noted that [] of NS~~S~~STATINTL had called and talked to us, Mr. Sampayrac admitted that this was the component in question and that there was some desire on the part of NSA to ride this bill. After some discussion of the particular provisions, Mr. Sampayrac inquired whether the Agency would have objection to inclusion of NSA. I responded that although the Agency would like to provide all possible assistance to NSA, as we have in the past, that this particular legislation was composite of some 15 or more almost unrelated items and that to add the interest of another Agency could be a serious complicating factor. Mr. Sampayrac appeared most sympathetic to this point of view and indicated that he would call me as early in the week as possible. Other than the NSA interest, he saw no problem in DOD concurrence in our legislative package.

2. [] - JGO) Met with Mr. David Minton, Senate Post Office and Civil Service Committee, and discussed with him, in general terms, the content of our proposed legislative package and advised that as soon as we have cleared BOB, I would come by and meet with him and, if appropriate, with Mr. John Burzio, the Staff Director. Mr. Minton affirmed my brief understanding that Mr. Burzio is still somewhat tied up with matters that have carried over from the Aviation Subcommittee of the Commerce Committee, which he had been handling for the Chairman before assuming his present directorship. He also indicated that we would like to have Mr. Minton and Mr. Burzio out to lunch with our staff at their convenience in the near future. Mr. Minton accepted the luncheon invitation and indicated that he and Mr. Burzio would look forward to meeting with our staff.

11. [] CEA) Discussed the [] case with Fred Mesmer, Staff Director of the Senate Immigration Subcommittee. I pointed out that Representative Feighan has reservations on this bill and either Senator Williams or Senator Eastland should speak to Mr. Feighan about it. Mr. Mesmer said that he would get in touch with Senator Williams and suggested that I ask Senator Eastland to discuss it with Mr. Feighan.

12. [] - LLM) Spoke with Mr. Thad Murray, in Representative Porter Hardy's office, in connection with his earlier inquiry on former Agency employee [] I gave him what little information I had and said we were in the process of getting all the facts pulled together on this 1956 case. Mr. Murray said that would be fine and mentioned that the widow, in her own way, had apparently misunderstood as something improper what had most likely been an act of consideration and concern by Agency representatives.

13. [] - LLM) [] NSA, called in connection with our proposed legislation now pending in BOB. I briefly explained what the package consisted of, said we would send him a copy, and that Mr. Warner would be most happy to go over it in detail with him.

14. [] - GLC) Talked with Pat Holt, Senate Foreign Relations Committee staff, regarding his request for information on insurgency in Latin America and his specific reference to the existence of an NIE on this subject. After consulting the Office of the DD/I and Mr. Abbot Smith, ONE, and acting on instructions from the Director, I informed Holt that while there was an estimate on this subject there were problems involved in its release outside of intelligence channels but that the Director had instructed this Office to have one of the experts who participated in the drafting of the estimate meet with Holt and brief him on the subject. Holt seemed to understand and said this was entirely satisfactory with him. I told him that we would arrange to meet with him at his convenience and he is to advise us as to a suitable time. One or two ONE briefers will be provided for this meeting.

25X1 6. [] - JSW) [] called indicating STATINTL []
that he had reviewed our legislative package and he was considering the possibility of suggesting in their response to the Bureau of the Budget, that the Department of Defense ask that similar authorities be extended to NSA employees presumably in the travel and medical fields. He planned to discuss this with General Carter and wanted to know our views. I indicated that this would complicate the matter and anything that tended to complicate, of course, we would not like to see but that we would not raise any objection. I suggested, however, that he consider that these are only a part of the package since the basic authorities are in P.L. 110; further, he might well wish to discuss the problems he might have in DOD. He might wish to take more time than he has now for NSA to pull together their justification and approach the problem on the merits with DOD and BOB. 25X1

25X1 8. [] - CEA) Called on Arthur Kuhl, Chief Clerk of the Senate Foreign Relations Committee, and arranged for security precautions for the Director's briefing of the Committee. Also prepared a seating chart of the Committee.

25X1 9. [] CEA) []
[] confirmed security arrangements regarding the transcript of the Senate Foreign Relations Committee briefing. 25X1

25X1 10. [] CEA) Delivered the agency information brochure to the office of Senator Ralph Yarborough for forwarding to a constituent.
